

## International Filter Testing Services

### Testing Liquid Filters

*IFTS is an independent centre with world-recognized expertise and unique facilities to measure all characteristics of all types of liquid filters.*

#### IFTS TESTS

- For all liquid filters (fuels, lubricants, hydraulics, drinking water and all types of industrial liquids...)
- All ratings tested (from sterilizing capsules to coarsest self-cleaning filters)
- All flow rates from 1L/h to 50 m<sup>3</sup>/h (800 L/min)
- Static and differential pressures up to 500 and 100 bar respectively

#### IFTS FOR PRODUCT DEVELOPMENT

- Working with customers to develop new test methods for new filters brought to the market
- Acknowledged expertise and contribution to the evolution of filter testing Standards on National, European and International levels
- Tests for all standard procedures (CEN, ISO, BS, DIN, JIS, SAE, ASTM...) and to meet individual customer specifications
- Designs, manufactures, renovates and sells all types of liquid filter test benches

#### IFTS MEASURES AND CERTIFIES

- Integrity (bubble point, forward flow and pressure hold tests)
- All levels of performance (filtration efficiency, retention capacity, absolute rating, bacterial retention...)
- All mechanical and hydraulic characteristics (pressure drop, pressure burst or collapse...)
- All compatibilities (chemical, cold or hot temperatures from -25°C to + 160°C...)
